S. Department of Agriculture, Forest Service Southwestern Region, Santa Fe National Forest has prepared the final revised land management plan (LMP) and the final environmental impact statement (FEIS) for the Santa Fe National Forest. The publication of this notice in the Albuquerque Journal initiates the 60-day objection period during which individuals or entities with specific concerns related to the Santa Fe revised LMP or FEIS may file objections for the Forest Service review prior to the approval of the revised land management plan. This is also the opportunity to object to the Regional Forester's list of species of conservation concern for the Santa Fe National Forest. Objectors must not rely on dates or timeframe information provided by any other source (36 CFR 219.56(b)(3)).
